

Data Sheet

NDS 400 K Discs, non-woven web for Metals, Steel, Stainless steel, Plastic, Paint, Varnish, Filler

Applications

Metals	●
Steel	●
Stainless steel	●
Plastic	●
Paint	●
Varnish	●
Filler	●

Properties

Bonding agent	Resin
Grain	Aluminium oxide/SiC
Backing	Non-woven web

Advantages: Creates an omnidirectional, ultra-fine satin finish on stainless steel surfaces - Effortless cleaning of metal surfaces - Removal of thin layers of oxidation on NF metal - Preparation of surfaces for subsequent coating - Roughening of painted and plastic surfaces - Available in ultra fine (SiC) and very fine (Aluminium oxide)

Diameter in mm	Grade	non-woven web, colour	Cat.number
150	very fine	maroon	342640
150	ultra fine	grey	342641
