

# MaxiFlex<sup>®</sup>

## ULTIMATE<sup>™</sup>

proRange<sup>®</sup>

The MaxiFlex<sup>®</sup> Ultimate<sup>™</sup> has become the benchmark for precision handling in dry environments.

MaxiFlex<sup>®</sup> is dermatologically accredited and pre-washed prior to packaging enabling us to guarantee it "Fresh out of the pack".

Certified to be washed.  
CLEAN, FRESH AND COST EFFECTIVE

### TECHNOLOGIES INSIDE

#### Delivering 360° breathability

**360° breathability** - patented micro-foam nitrile coating offers 360° breathability, making it the most breathable glove on the market today. AIRtech<sup>®</sup> has set the standard for breathability.

#### Longer use saves you money

MaxiFlex<sup>®</sup> has outstanding durability withstanding 18.000 abrasive cycles per millimetre thanks to the use of the DURAtch<sup>®</sup> coating technology in the coating construction. Per millimetre of coating MaxiFlex<sup>®</sup> has over twice the resistance of another other glove in its class.

#### For reduced hand fatigue

**25% thinner** - than most foam nitrile gloves on the market whilst offering twice the mechanical performance.

**Form, fit and feel** - mimics the "hand at rest", reducing hand fatigue and increasing comfort.

**Latest knitting technology** - utilized to produce smooth and rounded fingertips, improving fingertip sensitivity.

**Consistent liner penetration** - from the nitrile, leaving only the soft liner resting against the skin.

#### For better performance

**Optimized grip** delivered through our micro-cup finish allows for a controlled grip. GRIPtech<sup>®</sup> decreases hand fatigue and increases safety.

### CLEANLINESS GUARANTEED

We use our HandCare<sup>®</sup> Program for every single ATG<sup>®</sup> product. Not only do we make certain that all the elements used in our manufacturing process are safe for our employees, we also wash all the gloves after the production process as a further step in ensuring cleanliness. During this laundering process, we prefer the use of water that is rain-harvested, treated and continually recycled from our own water treatment facilities.

This enables us to guarantee our gloves to be "Fresh out of the pack" which is certified by Oeko-Tex<sup>®</sup> according to Standard 100. We do not use any SVHC during our manufacturing process.

And if that wasn't enough our gloves are also dermatologically accredited by the Skin Health Alliance. The Skin Health Alliance seal gives, for the first time in the safety industry, professional glove users the confidence that ATG<sup>®</sup>'s full range of gloves are "dermatologically safe" and the science and research behind them is robust.

More information about HandCare<sup>®</sup> by ATG<sup>®</sup> is available at [www.atg-glovesolutions.com](http://www.atg-glovesolutions.com).

## ULTIMATE™

proRange®

Now the iconic MaxiFlex® gets even better thanks to the inclusion of the new AD-APT® Cooling Technology from ATG®.

MaxiFlex® is dermatologically accredited and pre-washed prior to packaging enabling us to guarantee it "Fresh out of the pack".

Certified to be washed.  
CLEAN, FRESH AND COST EFFECTIVE

### TECHNOLOGIES INSIDE

#### Keeping hot hands cool, dry and productive

The AD-APT® Technology is activated by the movement of your hands and increased temperature within the glove, releasing a natural cooling agent that keeps your hand dry and make them cooler. It's designed to last for the duration of the glove and can be laundered.

#### Delivering 360° breathability

360° breathability - patented micro-foam nitrile coating offers 360° breathability, making it the most breathable glove on the market today. AIRtech® has set the standard for breathability.

#### Longer use saves you money

MaxiFlex® has outstanding durability withstanding 18.000 abrasive cycles per millimetre thanks to the use of the DURAtech® coating technology in the coating construction. Per millimetre of coating MaxiFlex® has over twice the resistance of another other glove in its class.

#### For reduced hand fatigue

25% thinner - than most foam nitrile gloves on the market whilst offering twice the mechanical performance.

Form, fit and feel - mimics the "hand at rest", reducing hand fatigue and increasing comfort.

Latest knitting technology - utilized to produce smooth and rounded fingertips, improving fingertip sensitivity.

Consistent liner penetration - from the nitrile, leaving only the soft liner resting against the skin.

#### For better performance

Optimized grip delivered through our micro-cup finish allows for a controlled grip. GRIPtech® decreases hand fatigue and increases safety.

### CLEANLINESS GUARANTEED

**MAXIFLEX® COMFORT™ IS DESIGNED FOR USE IN DRY ENVIRONMENTS REQUIRING PRECISION HANDLING.**

[www.atg-glovesolutions.com](http://www.atg-glovesolutions.com)

# MaxiFlex® ELITE™

proRange®

Weighing only 14 grams the MaxiFlex® Elite™ is our lightest and thinnest MaxiFlex® when extreme dexterity is needed.

MaxiFlex® is dermatologically accredited and pre-washed prior to packaging enabling us to guarantee it "Fresh out of the pack".

*Certified to be washed.  
Clean, fresh and cost effective*

## TECHNOLOGIES INSIDE

### Delivering 360° breathability

**Even more efficient breathability** - the heat from your hand travels quicker through the breathable surface due to it being 35% thinner than any other traditional foam gloves enabling it to breathe 40% more efficiently than similar gloves.

**360° breathability** - patented micro-foam nitrile coating offers 360° breathability, making it the most breathable glove on the market today. AIRtech® has set the standard for breathability.

### Longer use saves you money

MaxiFlex® has outstanding durability withstanding 12.000 abrasive cycles per millimetre thanks to the use of the DURAtch® coating technology in the coating construction. Per millimetre of coating MaxiFlex® has over twice the resistance of another other glove in its class.

### For reduced hand fatigue

**30% thinner** - than traditional foam nitrile gloves on the market whilst offering similar mechanical performance to traditional foam nitrile gloves.

**Ultra light weight liner** - the use of an ultra light liner utilized to produce smooth and rounded fingertips, maximizing fingertip sensitivity.

**Form, fit and feel** - mimics the "hand at rest", reducing hand fatigue and increasing comfort.

**Consistent liner penetration** - from the nitrile, leaving only the soft liner resting against the skin.

### For better performance

**Optimized grip** delivered through our micro-cup finish allows for a controlled grip. GRIPtech® decreases hand fatigue and increases safety.

## CLEANLINESS GUARANTEED

We use our HandCare® Program for every single ATG® product. Not only do we make certain that all the elements used in our manufacturing process are safe for our employees, we also wash all the gloves after the production process as a further step in ensuring cleanliness. During this laundering process, we prefer the use of water that is rain-harvested, treated and continually recycled from our own water treatment facilities.

This enables us to guarantee our gloves to be "Fresh out of the pack" which is certified by Oeko-Tex® according to Standard 100. We do not use any SVHC during our manufacturing process.

And if that wasn't enough our gloves are also dermatologically accredited by the Skin Health Alliance. The Skin Health Alliance seal gives, for the first time in the safety industry, professional glove users the confidence that ATG®'s full range of gloves are "dermatologically safe" and the science and research behind them is robust.

More information about HandCare® by ATG® is available at [www.atg-glovesolutions.com](http://www.atg-glovesolutions.com).

## ALSO AVAILABLE IN THE MAXIFLEX® RANGE

### MaxiFlex® Ultimate™

The MaxiFlex® Ultimate™ has become the benchmark for precision handling in dry environments.

### MaxiFlex® Ultimate™ with AD-APT®

Now the iconic MaxiFlex® gets even better thanks to the inclusion of the new AD-APT® Cooling Technology from ATG®.

### MaxiFlex® Endurance™

The raised dots on the MaxiFlex® Endurance™ offers increased cushioned for those doing repetitive jobs or carry heavy loads.

### MaxiFlex® Endurance™ with AD-APT®

Now the iconic MaxiFlex® gets even better thanks to the inclusion of the new AD-APT® Cooling Technology from ATG®.

### MaxiFlex® Cut™

MaxiFlex® Cut™ is a cut resistant MaxiFlex® that remains super thin, flexible, dexterous and comfortable. It's also DMF free and free from SVHCs (REACH).

### MaxiFlex® Comfort™

Offering extra insulation against heat and cold through high grade soft cotton that's plated inside the liner.

### MaxiFlex® Active™

Aloe vera and vitamin E are released while your work taking care of your hands during and after work.

Where to use:
